Leadership Council and Committee Reports

a. Equity – M. Sanchez/K. Woods

Presentation from curriculum include equity language when developing new curriculum. Lively discussion about equity considerations and school reopening, students and how they were being treated.

Debrief new semester thru an equity lens, final training with the NAPE, good news students are happy to be here, in light of hesitation to come back 80/20. Only 10 percent upset, give students grace, there are a number of students that are not being treated with grace. Students have been told they have missed too much class, not allowed to submit work remotely, there is a disconnect.

Student who wanted to use preferred name but legal name showed up on the roster. Conflict with instructor. Put the student in another class with a different instructor.

Ongoing discussion on how students are feeling and being treated. Quarantined and being dropped from class or being treated unfairly. Suggestion to create a survey for students.

Are we able to accommodate students easily to switch them to online classes if they have circumstances needed?
